***Examiner's statement of reasons for allowance***

1. Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance:

2. Claims 1-8 are allowed because prior art fails to show an apparatus and method of ion attachment mass spectrometry that includes introducing a gas to be detected and an excess-energy absorbing gas into an ionization chamber in which an ion emitter for emitting positively charged metal ions is arranged, and attaching said metal ions to said gas to be detected in said ionization chamber in an atmosphere of said excess-energy absorbing gas so as to ionize the gas to be detected by the metal ions, then performing measurement of mass of the gas by mass spectrometry comprising a step of preparing in advance a plurality of types of excess-energy absorbing gas, whose mass numbers are mutually different, in the outside of said ionization chamber, a step of performing the measurement by selecting one type of excess-energy absorbing gas from said plurality of types of excess-energy absorbing gas, and introducing it into said ionization chamber, a step of judging whether interference peaks are generated or not by data of said measurement, and a step of performing the measurement by selecting another type of excess-energy absorbing gas from said plurality of types of excess-energy absorbing gas, which generates no interference peak, when judging that the interference peaks are generated.

3. Claims 9 and 10 are allowed by virtue of their dependency ~~on claims 1-8~~

~~on claims 1-8~~

4. The examiner agrees with Applicant's arguments presented in the amendment filed 7-19-2005, particularly applicants argument that prior art of record does not disclose emitting and attaching metal ions in ion attachment spectrometry.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

5. Any inquiry concerning this communication or earlier communications should be directed to Phillip Johnston whose telephone number is (571) 272-2475.
